

## Organisational Model 2015

### Operational:

Whole School Improvement underpins all strategies for improved **student achievement**. This is evidenced through the Leadership Model which allows for line management as well as cross-management decision-making processes. In effect, the Administration of the school is a shared leadership model which encapsulates

- Succession Management planning through promotion of Level 3 Teacher processes and providing opportunities for all levels of staff to access higher level leadership training and trial.
- Opportunities for all staff to be involved in the decision-making processes through consultation, discussion and through being represented by teachers who will have a causal effect on Admin decisions through LT and AT meeting structures. This representative model allows for maximum voice to final decision-making in the school.
