Year 5 Excursion to Scitech

Dear Parents,

As part of our Year 5 Science programme, we have organised an excursion to Scitech and the Planetarium. The excursion will support our Literacy and Science programs focusing on Earth and Beyond and Physical Sciences. The visit will include a show called 'Things That Glow', which explores the reasons why things glow when exposed to different forms of light. After the show students go to Scitech to experience and investigate an exhibit called 'Playing With Light'. This is an interactive science exhibition that explores light from natural phenomenon to the light bulb, and how light influences how we see the world. The students will also explore the lab doing a session on Robotics. Finally, students will view a show in the Planetarium called 'Passport to the Universe'.
